## SKILLS

- Web Developer
- Mobile Developer
- SCRUM
- Empathy
- Good teamwork
- Passion for technology

## PROFILE

I'm an Argentine professional willing to relocate, specialized as a front-end developer in tools such as JavaScript, React.js, and React Native, with experience in agile methodology SCRUM. I'm passionate about technologies and I'm constantly learning. Currently, I'm adding Next.js, TypeScript, and MongoDB to my technical skills.

**Web Platform**

- Software developer

**ITec**          **2020 - 2021**
**Rio Cuarto city**

- Software developer

## EXPERIENCE

**Software Developer**          **2022 - Current**
Ditec (Rio cuarto)

Currently, I work as a Front-end software developer using React.js at this company. I have also worked on projects using React Native. During my time here, my main project has been developing an e-commerce platform for a US-based company called "BuckedUp".

**technological development**          **2020 - 2022**
ArboT (Rio Cuarto)

At this company, I performed tasks in both software and hardware. ArboT was a company specialized in robotics development, and my responsibilities were varied, including tasks ranging from 3D design, basic electronics, and problem-solving, to device assembly and programming.

## LANGUEGE

- Native Spanish
- Basic English
